

PROJECT DESIGN PHASE-II

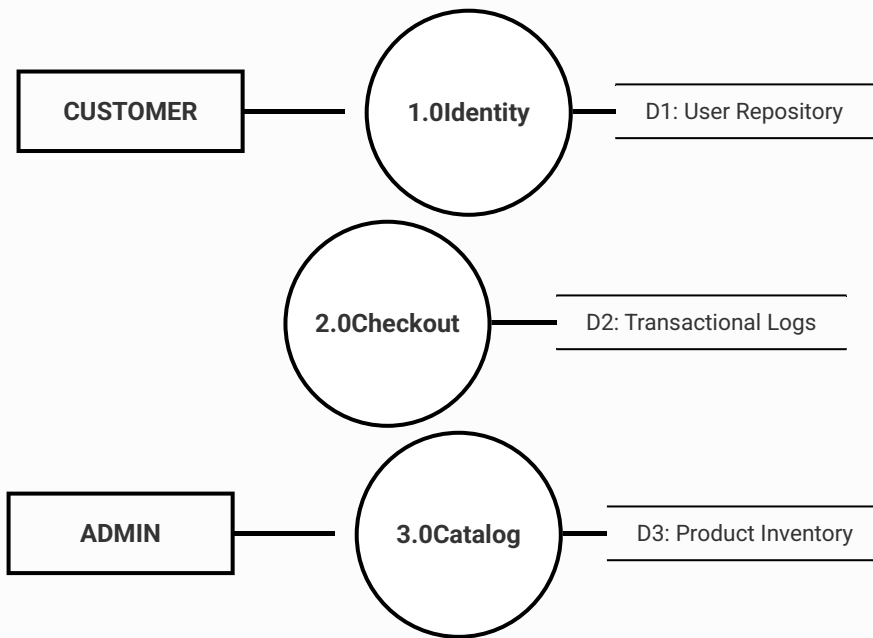

Data Flow Diagram & User Stories

Date	18 June 2026
Team ID	
Project Name	ShopEz (Full Stack MERN Application)
Maximum Marks	4 Marks

Data Flow Diagrams (DFD):

The following schematics delineate the movement of data across the ShopEz infrastructure, highlighting the precise exchange of information between external users (Customers and Administrators) and the core system logic.

User Stories & Integration Tasks:

Actor	Epic	Story ID	User Requirement / Task	Acceptance Standard	Priority	Sprint
Buyer	Security	USN-1	As a buyer, I want to establish and manage a secure personal profile.	Email format validation success.	High	S1
Buyer	Security	USN-2	As a buyer, I want my sessions to stay authenticated during browsing.	Bearer token provided on login.	High	S1
Buyer	Catalog	USN-3	As a buyer, I want to explore clothing items by specific demographic tags.	Product grid reflects filter choice.	High	S2
Buyer	Search	USN-4	As a buyer, I want to find fashion items using name-based text queries.	Exact and partial string matches.	Medium	S2
Buyer	Orders	USN-5	As a buyer, I want items to persist in my cart for future purchasing.	Database stores user cart state.	High	S3
Buyer	Orders	USN-6	As a buyer, I want a multi-step checkout to finalize my purchase.	Order success receipt generated.	High	S3
Buyer	Analytics	USN-7	As a buyer, I want to access a list of my previous successful orders.	Fetch and list order history.	Medium	S4
Manager	Inventory	USN-8	As an admin, I need the ability to add, edit, or archive store products.	DB records reflect CRUD changes.	High	S4
Manager	Analytics	USN-9	As an admin, I want to oversee global order volume and delivery tasks.	Global list of all site transactions.	Medium	S4
